

Event Overview

Center for Ultra-wide Area Resilient
Electric Energy Transmission Networks

Monday, February 16, 2015

Dr. Kevin Tomsovic
Professor of EE, University of Tennessee
Director of CURENT Engineering Research Center

Short Talk - **Pizza Provided**

**“CURENT Overview: Wide-area
Control of the Power Grid”**

Workshops, Funding, Employment - Industry Partnerships - Internships, Special Projects

Graduate Program

Research Areas

- Integration of Renewable Energy Sources
- Distributed Generation and Microgrids
- Wide-Area Measurements and Control
- Electricity Markets
- Modeling and Analysis
- Power Systems Operation
- Power Electronics

Labs & Test Beds

- FNET
- High Power
- Power Electronics
- Hardware TB
- Large Scale TB
- *6 Floors
- *16,000 SQ FT
