

CALL FOR PAPERS

PMAPS 2018 Boise, Idaho June 24–28

The PMAPS conference is designed for engineers and scientists worldwide to interact around the common theme of power engineering under uncertainty.

International Conference on Probabilistic Methods Applied to Power Systems

Probabilistic Methods: Practical Approaches for Managing Risk and Uncertainty in the Electric Power Industry

PAPER TOPICS

- Reliability for system planning, operation, control and protection
- Reliability centered maintenance and asset management
- Uncertainties and correlations in renewable energy systems
- Outage data and analysis
- Probabilistic analysis in demand-side management
- Load forecast uncertainties
- Reliability assessment of the smart grid and micro grids
- Cascading failures in electric power systems
- Probabilistic assessment in power markets
- Probabilistic economic analysis
- Reliability of cyber-physical systems

Visit pmaps2018.org for a full list of potential topics and submission requirements.

DEADLINES

Dec. 31, 2017	Full Paper Submission
Feb. 15, 2018	Notification of Acceptance
Mar. 1, 2018	Final Submission of Accepted Papers
Feb.1–May 1, 2018	Early Registration

For more information, contact:
Dr. Milorad Papic
PMAPS 2018 General Chair
